TECHNICAL SKILLS

- C programming Language
- JAVA Programming Language
- MS Office

PERSONAL PROJECTS

• Quick Revision of Basics

"Quick Revision of Basics" is a simple web page using HTML and CSS to provide a concise refresher on fundamental concepts in a specific topic. It serves as a user-friendly reference guide, showcasing my web development skills and effective presentation of information.

• Automatic letter generator

The "Automatic Letter Generator" is a Python project that automates formal letter generation based on user-specified reasons, simplifying and standardizing the process of creating formal correspondence.

• Entry-Exit Count Based Automation

"Entry-Exit Count Based Automation" is an embedded systems project that automates electrical appliances, like bulbs, according to the count of entries and exits. It efficiently controls the appliances based on occupancy, improving energy efficiency and convenience.

STRENGTHS

- **Quick Learner:** Demonstrated ability to quickly grasp new concepts and technologies, facilitating efficient on boarding and adaptation to changing work environments.
- **Time Management:** Proficient in effectively prioritizing tasks and meeting deadlines, optimizing productivity and ensuring timely project completion.
- **Adaptability:** Proven track record of seamlessly adjusting to diverse situations and challenges, enabling smooth transitions in various work settings.
- **Shift Work Proficiency:** Experienced in efficiently working under rotating shifts, maintaining high performance levels and consistency in a 24/7 operational environment.
